AMENDMENT NO. 1 REQUEST FOR QUALIFICATIONS (RFQ) Professional Architectural and Engineering Services

Purpose of Amendment

This Amendment No. 1 is issued to clarify and correct the intent of the above-referenced Request for Qualifications (RFQ).

The RFQ was originally titled and referenced as seeking *Architectural and Engineering Services*. The primary intent and main focus of this procurement is to solicit qualifications for **Engineering Services**. Any reference to Architectural Services within the RFQ is secondary and included only if incidental or complementary to the required engineering work.

Clarification of Scope

The RFQ is hereby amended to clarify that:

- The City/Agency's primary objective is to procure **professional Engineering Services**.
- Engineering disciplines (including, but not limited to, civil, structural, transportation, and related engineering services applicable to the project) shall be the principal basis for evaluation and selection.
- Architectural services, if required, are considered ancillary and are not the primary focus of this procurement.

Effect on Submittals

Responding firms shall ensure their Statements of Qualifications emphasize relevant **engineering experience, staff qualifications, and past performance**. Any architectural capabilities included in a submittal should be presented as supplemental to the firm's engineering services.

All other terms, conditions, and requirements of the original RFQ remain unchanged and in full force and effect.

Garrett Schlett
